ELIF RABIA NUR KIRLI

CIVIL ENGINEER & IT SPECIALIST

İstanbul, Turkey | kirli22@itu.edu.tr | linkedin.com/in/elif-rabia-kirli-7188133a6

PROFESSIONAL SUMMARY

Highly motivated Civil Engineering undergraduate at Istanbul Technical University with a unique blend of structural design knowledge and IT systems administration expertise. Proven ability to bridge the gap between field operations and digital innovation, demonstrated through hands-on experience at large-scale RAMS projects. Passionate about leveraging BIM methodologies, Python, and robust system integrations to optimize modern construction processes.

AREAS OF EXPERTISE

- Building Information Modeling (BIM)
- Network & System Administration
- AutoCAD & Structural Detailing
- Project & Site Coordination

PROFESSIONAL EXPERIENCE

Junior Network System Administrator, Istanbul Technical University (İTÜ Bilgi İşlem Daire Başkanlığı)
Mar 2026 to Present
Istanbul, Turkey

- Administered Active Directory, Group Policy Objects (GPOs), DNS, and DHCP services in Windows Server environments.
- Configured and troubleshot Cisco network devices, implementing VLANs, Inter-VLAN routing, OSPF, and Access Control Lists (ACLs).
- Performed Linux system administration tasks including process management, shell scripting, file permissions, and secure remote access.
- Managed virtual machine deployments, datastores, and server infrastructure using VMware vSphere and vCenter.
- Provided comprehensive IT support, efficiently resolving technical tickets and maintaining network performance and security.

Civil Engineering Intern, RAMS Türkiye
Aug 2026 to Sept 2026
Istanbul, Turkey

- Shadowed senior site engineers to observe daily field operations, construction methodologies, and site coordination at the large-scale Etro Residence project.
- Monitored daily construction progress of the residential units, ensuring on-site executions aligned with structural blueprints and technical specifications.
- Participated in regular site walk-throughs to observe quality control procedures, material inspections, and occupational health and safety (OHS) compliance in a dynamic site environment.
- Assisted in documenting daily field reports by tracking workforce allocation, heavy machinery usage, and site logistics for the residence project.
- Gained practical, on-site insight into resolving field discrepancies, sub-contractor communication, and real-world construction management phase.

EDUCATION

Istanbul Technical University, Istanbul, Turkey Sept 2022 to Present
Bachelor of Science (B.Sc.) in Civil Engineering

- Relevant Coursework: Soil Mechanics, Hydraulics, Fluid Mechanics, Structural Analysis, and Reinforced Concrete Design (TS 500).
- BIM & Systems Project: Co-developing a dedicated website focused on Building Information Modeling (BIM) methodologies and system integrations, bridging civil engineering with modern digital technologies.
- Engineering Drafting & Design: Actively utilizing AutoCAD for drafting precise 2D cross-sections, structural detailing, and geotechnical site plans across various technical coursework.
- Academic Projects: Completed comprehensive engineering design projects, including geotechnical slope stability analysis and cantilever retaining wall structural calculations.
- Interdisciplinary Skills: Combining civil engineering principles with IT fundamentals to explore innovative construction management and digital documentation processes.

LICENSES & CERTIFICATIONS

- Operating Systems Basics, Cisco Networking Academy
- CCNA: Introduction to Networks, Cisco Networking Academy
- CCNA: Switching, Routing, and Wireless Essentials, Cisco Networking Academy
- Level 1 Information Manager - Basics, Plannerly - The BIM Management Platform
- Level 2 Information Manager - Advanced, Plannerly - The BIM Management Platform
- Level 3 Expert Course, Plannerly - The BIM Management Platform
- RED HAT TRAINING: GETTING STARTED WITH LINUX FUNDAMENTALS (RH104 RHA) - VER. 9.1, Red Hat
- TEMEL LINUX 101, 201, 301, 401, Turkcell Geleceği Yazanlar
- Introduction to BIM for the AECO industry, Autodesk
- Introduction to BIM for structural design and engineering, Autodesk

LANGUAGES

Turkish Native / Bilingual Proficiency, English Professional Working Proficiency, German Elementary Proficiency / A1-A2

HOBBIES

- Artisan Baking & Culinary Arts
- Linux Scripting & Environment Customization
